

Winter Safety Tips

- Check Doors and windows for cracks or broken glass
- Inspect roof for missing shingles and gutters as well as your downspouts for blockages
- Check foundations for cracks
- Drain water pipes that are not in use
- Get the fireplace ready by cleaning the chimney
- Test your backup generator if you have one
- Remove all flammable materials from around your furnace
- Install/test smoke and carbon monoxide detectors
- Keep sidewalks and driveways shoveled and free from ice
