

The Village of East Aurora

...invites you to attend a Community Zoning Workshop for the...

2017 Zoning Code Update

April 5th from 7:00 to 8:30PM

The Village of East Aurora has initiated this update to ensure that local regulations are reflective of current community values and development preferences. The Village has a long history of planning for its future, and in the last decade has completed several plans and studies that have resulted in recommendations to update the local zoning code. This project is intended to implement the recommendations of these plans and studies, and ensure there is consistency with the Village's overall community vision.

Attendees of the Zoning Workshop on April 5th will be introduced to the project's Steering Committee members and consultant team, and will receive information on the proposed update process. In addition, the public will be asked to complete a visual Community Preference Survey and participate in brainstorming sessions regarding zoning code and land use issues and opportunities for the Village.

Your input is needed to help inform this process. We hope to see you there!

Location: Aurora Senior Citizens Center @ 101 King Street
